

Go to China with Brooklyn College

CUNY-BC study in China trip is a very popular program.

If you have read our website in detail, and if you have had the pleasure of talking with students who went on our past trip, you sure will know this CUNY-BC China trip is an awesome experience – the once-in-a-lifetime opportunity that you should not miss.

Here are some reasons why students find our program attractive:

1. Travel to Five Famous Cities

We do not stay in one city, but travel to five famous cities of Beijing, Xi'an, Nanjing, Suzhou/Hangzhou & Shanghai—carefully selected beautiful cities all meaningful to what you study.

2. Well-Organized Travel Service

We get help from professional travel agencies in each city. When you arrive in Beijing, local English-speaking tour guides and chartered buses (nice & clean) will take you with your baggage to the hotel and restaurants—you do not need to worry about anything, as all things have been planned for us well in advance. Next day, just get ready for the exciting trip to the Great Wall & much more.

3. Excellent Hotels in All Cities

We do not stay in dorms (which you will not like). Instead, in all cities we only stay in nice hotels that you will enjoy and miss when back in the States.

4. Side Trips to Hong Kong, etc.

We also ask travel agencies to help organize side trips to other popular tourist destinations (e.g., Hong Kong, Tibet, Guilin, Yellow Mountain, Sanya, etc.), to enrich our curricular activities.

5. Diverse Curriculum

Our program offers a rich and diverse curriculum, with multiple courses in business, language, history & culture to choose from. In the past, we tried to offer 4-5 classes in summer or winter such that students could register for courses they want to study in China.

6. Professors Offer Help

Our program is faculty-led: friendly helpful professors travel with the group to offer assistance and guidance when needed, and also give students much freedom.

7. Making Good Friends

When traveling, living and studying with a group of carefully-selected students for 4 weeks in those beautiful Chinese cities, you get many opportunities to make friends with co-participants of the program and with Chinese counterparts.

8. Affordable Low Cost

We understand students' difficulty with funds and have worked hard to bring the cost down.

Your research must show that our program cost is the most reasonable. This low cost pays for your round-trip international flights, hotels of 4 weeks in those Chinese cities, travel service in China, transportation within & between those cities, admission tickets to tourist sites, etc.—CUNY-BC China program is an inexpensive way to travel and study in China, and to enjoy!
